

AV COLD & FROZEN

Satellite Food Merchandiser

Perfect for locations
serving 50 - 150 customers!

The **AV Cold & Frozen Food** merchandiser lets you vend sandwiches, salads, dairy products, chilled candies and hard freeze desserts and food items all from one machine. Its patent pending design features convection air flow technology that keeps the top area chilled to 36° while at the same time allowing the bottom area to maintain -15° and below for hard freeze items.

Using the existing control and monetary systems of a host snack machine, allows a cost effective way to bring cold & frozen food items to your location without a large investment. Its fresh, inviting appearance, extra-large merchandising space and energy saving LED lighting provide maximum product appeal and keep products moving fast.

Machine Foot Print

In order to bring you the best products possible we continue to improve product design and performance and as such specifications are subject to change without notice.

Two Separate Food Zones
Vend refrigerated foods from the top zone at 36°F and frozen deserts at -15°F from the bottom.

LED Lighting
Enhances product presentation promotes more sales. No bulb servicing for 5 years. Energy efficient and eco friendly.

Glass Front Merchandising
Promotes always full appearance, reduces "shopping" and facilitates proper product rotation.

iVend Guaranteed Delivery System
Keeps customers satisfied and reduces service calls for misloaded product.

Higher Efficiency Modular Refrigeration System
No need to hire a technician. Removes easily from the rear for off site cleaning and service.

On-board USD Refrigeration Control
Eliminates melt downs due to host control interruption. Displays zone temperatures and messages.
